MEMORANDUM FOR EXECUTIVE SECRETARY, NATIONAL FOREIGN INTELLIGENCE BOARD

SUBJECT: CCPC Study on Intelligence Activities Against Illicit
Narcotics Trafficking (S)

Reference: NFIB-D-64.7/4 CCPC-D-5/76 dated 29 October 1976.

1. (S) DIA concurs in the Director Central Intelligence suggestion contained in enclosure to reference memorandum that the National Foreign Intelligence Board endorse the Critical Collection Problems Committee study and the forwarding of the study to the National Security Council. The legal prohibitions and attendant source disclosure dangers are of major concern to Defense Department collection activities in their support to the Drug Enforcement Administration. The foregoing, coupled with a constrained resource environment, suggest the need for National Security Council consideration.
2. (S) The CCPC study is viewed as a laudatory effort in comprehensive presentation of an extremely complex problem and provides to the national level executives a clear understanding of the problems associated with the administration of drug enforcement programs.
